+91 9688918263

Key Expertise:

About **2** years and **5** months of real time experience in SQL based Development.

Experience summary:

Name of the Organization	Position Hold	Duration
Gove Enterprises, Tirunelveli.	Software Engineer	From March 2023

Work summary:

I am a highly self-motivated professional having **2.5** years of experience in the field of Data Migration and SQL based development.

- Knowledge and working experience in SQL Language,
- Working experience in Data Migration and ETL Concepts.
- Skilled in building stored procedures, functions, and triggers in SQL Server to maintain data accuracy.
- Experience in Excel Data Processing & Analysis
- Hand on experience in Data Import/Export Between MSSQL and Excel.

Skills:

Programming Languages:
- SQL

Database Management:
- MSSQL

Query Languages:
- SQL (DML, DDL, DCL, TCL)

Development Tools:
- Operating Systems: Windows.
- Tools: SQL Server Management Studio (SSMS), ETL, Sync manager

Achievements:

- Got the FY-24 "Excellence in effort award" in Gove Enterprises.
- Got Centum (100/100) in 10th Standard Mathematics.

Project Details:

Title : SQL Query Development for AR Processes and Data Integrity Using MSSQL.

Team Size: 5

Technologies: SQL Language, XML, ETL, Microsoft Excel.

Platforms: SQL Server Management Studio (SSMS).

Description:

I worked as a SQL Developer using Microsoft SQL Server to build and improve databases. Did data analysis, moved data between systems, and cleaned or changed data as needed. Created stored procedures, functions, and SQL queries to help with reports and business tasks. Used SSMS and Excel to handle and check data. Made sure the data was correct, and the SQL code ran well and fast.

Contribution:

- Understand the driver behavior and limitation by using the interfaces available in **Stored Procedures & Functions**: Developed and maintained stored procedures to automate data operations and business logic, ensuring efficient and reusable code for complex tasks.
- **WITH Clause (Common Table Expressions - CTEs):** Utilized WITH clause (CTEs) to simplify complex queries, enhance readability, and improve performance by breaking down large queries into manageable, reusable components.
- **SQL Joins**: Proficient in writing complex JOIN queries (INNER JOIN, LEFT JOIN, RIGHT JOIN, etc.) to retrieve and combine data from multiple related tables, ensuring accurate and efficient data retrieval.
- **Data Manipulation & Transformation**: Used MSSQL's T-SQL to write effective data manipulation queries, ensuring data integrity through INSERT, UPDATE, DELETE operations, and applying conditions to enforce business rules.

Educational Qualification:

BE (ECE)	Anna university	2020	Dr.G.U. Pope College of Engineering, Thoothukudi.	61.2
HSC	State board	2013	Pope Memorial Hr Sec School, Thoothukudi.	75.9
SSLC	State board	2011	Pope Memorial Hr Sec School, Thoothukudi.	91.2

Personal information:

Date of Birth   : 17-Oct-1995
Father's Name   : Mr. Selvaraj. P
Nationality   : Indian.
Marital Status   : Married.
Contact Address   : 2/172, Rajiv Gandhi Street, Pattandivillai, Nattathi,
                          Sawyerpuram (Post.), Thoothukudi (Dist.), Tamil Nadu – 628251.

Place: Yours faithfully,

Date:

                                                    (JEBAKUMAR. S)
